This bibliography is made up of books for which I have contributed illustrations. They are predominantly children's books – picture-books, chapter books, readers and a few that are difficult to categorise. These books vary in size and extent. Many are extensively illustrated, others use a smattering of black and white 'spot' illustrations. A bibliography arranged alphabetically by the author's surname is also available.

There are two titles that are not a children's book – these are listed above in [BLUE](#). Titles in [RED](#) were done for trade publishers. They could be described as retail 'bookshop' books. Titles in [GREEN](#) were done for educational publishers, and are designed mainly for school use, for example; readers. Titles in [PURPLE](#) either use existing material (bind-ups), or are a reissued edition of a book with new material. Some of these [PURPLE](#) titles are marked by an asterisk – these are either a collaboration with another illustrator, or my contribution is a single illustration (an anthology). Not included are the books for which I have done the bookcover only. (For the boastful purpose of counting the number of books I have illustrated in aggregate, all books in [PURPLE](#) are excluded.)

Each title has an ISBN* number. Many books have more than one, eg hardback, paperback, large format, ebook ... More detailed information on each title can be gained by going online to the [National Library of Australia](http://trove.nla.gov.au) at: trove.nla.gov.au and searching by the above ISBN number. (I have tried to be accurate, however I cannot guarantee all ISBN details here are correct.)

*There are two incomplete listings. I do not have the ISBN or copies of two educational readers. These are marked [n/a](#)

Disclaimer: I am not Craig Smith, NZ musician & author of a children's book about a donkey.
